PRIVATE ZUMBINI® CLASSES

BOOK PRIVATE CLASSES FOR YOU AND YOUR
NEIGHBORS, CLOSE FRIENDS, OR FAMILY!

Zumbini has been carefully designed to promote cognitive, social, emotional, and motor skill development for your little one at this critical stage. Not ready to attend a public class or prefer an experience closer to home? Now you can schedule private Zumbini classes with me at a time and place that works for you!

Our curriculum targets 4 key areas of development:

Emotional - Your child will identify different emotions through use of different rhythms in class, creating intentional shifts in their mood.

Social - Your child will engage in social interaction with peers through singing, dancing, and playing instruments together.

Cognitive - Zumbini promotes the use of reason and logic by identifying music patterns and playing instruments. It also enhances language skills by repeating sounds and syllables through our specially choreographed songs.

Fine + Gross Motor Skill - **Zumbini** activates their small and large muscle groups with vibrant movement, choreography, and instrument play.
